Between 2007 and 2013, homelessness among children increased while it decreased among single adults.

During that time, Michigan decreased its emergency shelter beds and increased its permanent supportive housing beds; the number of transitional housing beds remained about the same.

Sources of Income and Benefits for Adults Exiting Homelessness Programs in 2011¹³

Income and benefits

In 2011, over one quarter (26.6%) of adults exited programs serving homeless households with income from employment, though a similar percentage (23.7%) exited with no income at all.

Number of Homeless Students (by living arrangement and school year)¹⁴

Students

The 60.5% rise in homeless students between the 2006-07 and 2012-13 school years can be mostly attributed to the tripling of the number of students living doubled up.
