City Council District 10

Ydanis Rodriguez Inwood / Washington Heights

Highlights

While over 2,500 District 10 students are homeless, there are no family shelters in the district.

Homeless students in District 10 were more likely to receive Individual Education Plans (IEPs) late than students citywide. They were also more likely to receive late IEPs than their homeless peers in both Manhattan and New York City overall.

1 out of 5 District 10 students experienced homelessness in the last five years

32% of households are severely rent burdened

15% of people are unemployed

43% of people work in low-wage occupations

30% of people have less than a high school education

36% of single mothers with children under five live in poverty

Note: The number of homeless students represents the council district where students attend school; homeless students may attend schools in districts where they do not live. Students who experienced homelessness in the last five years is the ratio of currently homeless and formerly homeless students to the total number of students in the district. Formerly homeless students are defined as those who are currently housed but experienced homelessness at any point during SY 2010-11 to SY 2014-2014. Chronically absent students are those who miss 20 or more school days in a school year. Late IEP is defined as received after Kindergarten. Data represent a cohort of students who entered Kindergarten in SY 2010-11 and received an IEP at some point during the next five years. Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English proficiency rates refer to students and projent during their high school career. Low-wage occupations are defined as those with annual median salaries at or below \$28,583, which is 150% of the Federal Poverty Level for a family of three in 2014. Households that are severely rent burdened spend 50% or more of their income on rent. Districts 8 and 34 are split between boroughs, and the numbers used in the borough rank
