

City Council District 37

Rafael Espinal
Cypress Hills / Highland Park

Rank by Largest Number of Family Shelter Units

1

out of 16 districts in Brooklyn

5

out of 51 districts in New York City

Rank by Highest Percent of Homeless Students

4

out of 16 districts in Brooklyn

14

out of 51 districts in New York City

Highlights

District 37 is home to five Tier II shelters and two hotel shelters, representing a full 23% of Brooklyn's family shelter units.

Homeless students overall were more likely to receive Individual Education Plans (IEPs) late than all students citywide. Those in District 37 were even more at risk, with 73% receiving their IEP late.

1 out of 6 District 37 students experienced homelessness in the last five years

Neighborhood

38% of households are severely rent burdened

13% of people are unemployed

47% of people work in low-wage occupations

35% of people have less than a high school education

43% of single mothers with children under five live in poverty

Note: The number of homeless students represents the council district where students attend school; homeless students may attend schools in districts where they do not live. Students who experienced homelessness in the last five years is the ratio of currently homeless and formerly homeless students to the total number of students in the district. Formerly homeless students are defined as those who are currently housed but experienced homelessness at any point during SY 2010-11 to SY 2014-15. Chronically absent students are those who miss 20 or more school days in a school year. Late IEP is defined as received after Kindergarten. Data represent a cohort of students who entered Kindergarten in SY 2010-11 and received an IEP at some point during the next five years. Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English Language Arts tests. Dropout and graduation data represent the four-year dropout and graduation rates for students who entered high school in 2011 and experienced homelessness at any point during their high school career. Low-wage occupations are defined as those with annual median salaries at or below \$28,583, which is 150% of the Federal Poverty Level for a family of three in 2014. Households that are severely rent burdened spend 50% or more of their income on rent. Districts 8 and 34 are split between boroughs, and the numbers used in the borough rankings are for the section of the district that falls in that borough. Percentages may not add to 100% due to rounding.
