City School District 12
Bronx

East Tremont

Key Findings

District 12 ranks third citywide for the percentage of students homeless. **(18%)**

District 12 homeless students had the second-lowest graduation rate in the city at 44% in SY 2015–16. Suspension rates across all groups have roughly halved between SY 2010–11 and SY 2015–16.

Other	4%

Notes: The number of shelter units in a school district and the number of students in shelter are not the same; students may attend schools in districts where they do not live, and each shelter unit can house more than one child. Some shelters are not included due to missing or incomplete address information. See User's Guide for further notes about the family shelters included in this publication. The number of homeless students represents where students attend school; homeless students may attend schools in districts where they do not live. Ratio of elementary students who will experience homelessness by fifth grade is an estimate based on trends over the last six years; due to growing student homelessness, this is likely an underestimate. Students who experienced homelessness in the last six years is the ratio of currently homeless and formerly homeless students to the total number of students in the district. Notes on educational outcomes are listed in each section. Percentages may not add to 100% due to rounding. Dotted lines and dashes indicate missing data or data that have been redacted due to accuracy or student privacy. "In Temporary Arrangement" refers to students who were homeless living in other temporary settings, not in shelter.
