

Unless current trends change ...

1 in 7 New York City public school students will be homeless during elementary school.

During elementary school, the typical student who was homeless ...

... lived in at least 2 housing settings during elementary school

... transferred schools mid-year two times

... missed 88 days of school—almost half of a school year

... had twice the risk of being suspended or held back a grade

... had half the proficiency on their 5th-grade math and English Language Arts assessments.
